

# An incomplete bibliography for “Decision Theory in Economics: an overview of where we are and where we’re going”

by Jacob Sagi

## **Some great review articles/books:**

- Kreps, David M., 1988, Notes on the Theory of Choice, Boulder, CO: Westview Press.
- Backus, Routledge, and Zin, Exotic Preferences for Macroeconomists, NBER Working Paper w10597
- Camerer, Colin., 1995, "Individual Decision Making." The Handbook of Experimental Economics. Princeton, N.J.: Princeton University Press: Chapter 8.
- Mark J. Machina , 1987, Choice Under Uncertainty: Problems Solved and Unsolved, *The Journal of Economic Perspectives*, 1, 121-154.
- Matthew Rabin, 1998, Psychology and Economics, *Journal of Economic Literature*, 36, 11-46
- Starmer, C., 2000, Developments in non-expected utility theory: The hunt for a descriptive theory of choice under risk, *Journal of Economic Literature*, 38, 332-382.

## **References on probabilistic sophistication:**

- Savage, L.J., 1954, The Foundations of Statistics, New York: Wiley.
- Machina, M. J., and D. Schmeidler, 1992, A More Robust Definition of Subjective Probability, *Econometrica*, 60, 745–780.
- Grant, S., 1995, Subjective Probability Without Monotonicity: Or how Machina’s Mom May also Be Probabilistically Sophisticated, *Econometrica*, 63, 159–191.
- Chew, S.H. and J.S. Sagi, 2006, Event exchangeability: probabilistic sophistication without continuity or monotonicity , *Econometrica*, 74, 771-786.

## **References on representation if preferences via a utility function:**

- Candea, J.C., Indurain, E. and Mehta, G.B., 2004, Utility functions on locally connected spaces, *Journal of Mathematical Economics*, 40, 701-711.
- Debreu, G., 1954, Representation of a preference ordering by a numerical function, in Decision Processes , edited by R. M. Thrall, C. H. Coombs, and R. L. Davis, 159-165. Wiley (New York).
- Eilenberg, S., 1941, Ordered topological spaces, *American Journal of Mathematics*, 63, 39-45.
- Rader, T., 1963, The existence of a utility function to represent preferences, *Review of Economic Studies*, 30, 229-232.

## **References on expected utility (neoclassical)**

- Theory of Games and Economic Behavior. With O. Morgenstern. Princeton University Press (1st ed., Princeton, 1944, 625 pp.; 2d ed., Princeton, 1947, 641 pp.; 3d ed., Princeton, 1953, 641 pp.)
- Herstein, I.N., Milnor, J., 1953. An axiomatic approach to measurable utility, *Econometrica*, 21, 291–297.

### **References on time consistency (neoclassical)**

- Koopmans, T.C., 1960, Stationary ordinal utility and impatience, *Econometrica* 28, 287-309.
- Kreps, D.M. and E.L. Porteus, 1978, Temporal Resolution of Uncertainty and Dynamic Choice Theory, *Econometrica*, Vol. 46, 185-200.
- Seldon, L., 1978, A New Representation of Preferences over "Certain x Uncertain" Consumption Pairs: The "Ordinal Certainty Equivalent" Hypothesis, *Econometrica*, Vol. 46, 1045-1060.
- Johnsen, T.H., and J.B. Donaldson, 1985, The structure of intertemporal preferences under uncertainty and time consistent plans, *Econometrica* 53, 1451-1458.
- Epstein, L.G., Stanley E. Zin. Substitution, 1989, Risk Aversion, and the Temporal Behavior of Consumption and Asset Returns: A Theoretical Framework, *Econometrica*, 57, 937-969.
- Skiadas, C., 1997, Conditioning and Aggregation of Preferences, *Econometrica*, 65, 347-367.
- Grant, S., Kajji, A., Polak, B., 2000, Temporal resolution of uncertainty and recursive nonexpected utility models. *Econometrica*, 68, 425-434.

### **References on the Ellsberg Paradox**

- Ellsberg, D., 1961, Risk, Ambiguity and the Savage Axioms, *Quarterly Journal of Economics* 75, 643-669.
- Halevy, Y., Ellsberg Revisited: An Experimental Study, forthcoming in *Econometrica*.

### **References on the Allais Paradox**

- Allais, M., 1953, Le comportement de l'homme rationnel devant le risque: Critique des postulats et axiomes de l'école Américaine, *Econometrica*, 21, 503-546.
- Machina, M.J., 1982, Expected Utility Analysis Without the Independence Axiom, *Econometrica*, 50 277-323.
- Chew, S.H., 1983, A Generalization of the Quasilinear Mean with Applications to the Measurement of Income Inequality and Decision Theory Resolving the Allais Paradox, *Econometrica* 51, 1065-1092.
- Dekel, E., 1986, An axiomatic characterization of preferences under uncertainty: Weakening the independence axiom, *Journal of Economic Theory*, 40, 304-318.
- Chew, S.H., 1989, Axiomatic utility theories with the betweenness property, *Annals of Operations Research*, 19, 273-298.
