

Hayley Dosser  
Department of Physics, University of Alberta  
hdosser@ualberta.ca

Undergraduate Studies - Department of Physics. BSc in Honors Physics, Completed 2007. Graduate Studies - Department of Physics. MSc under supervision of Bruce R. Sutherland: bruce.sutherland@ualberta.ca Depts. Physics and Earth Atmospheric Sciences University of Alberta Edmonton, Alberta, Canada T6G 2G1

I am currently conducting research in the field of fluid dynamics, in particular, I am using numerical simulations to study the propagation of internal gravity waves in the atmosphere and ocean. As such, this summer school would be an invaluable opportunity for me to gain new research skills, interact with others in this field, and learn about a variety of related subject areas. I will be traveling from Edmonton, AB.
